THE MORGAN SHIP DEAL,-Com ment in Berlin is generally adverse to the Morgan steamship combine. The Neues Wiener Journal characterizes it as the "first world combine" and says

"The interests of the entire world are opposed to America monopolizing the whole shipping treffic of the world or using international pavigation to develop its own export trade and serve its own political ends. The present organization contains the root of a still closer combine, of which America will closer combine, of which America will be the strongest member, not withstanding the fact that Germany is able to bring into the pool ahundred times the traffic of America; yet, the superior organized fluancial power of the Morann syndicate will eventually give the United States supreme control. From the standpoint of national interests the transits the most denormal approximation. the standpoint of national interests the trust is the most dangerous concelvable and it is only natural that the States affected should watch the development closely and take every precaution possible. It may be found necessary to extend the system of State ownership to the sphere hitherto left exclusively for private initiative. Yet State ownership of the commarcial marine would ship of the commercial marine would greatly reduce its mobility and give a fresh advantage to America, which has other means of defending and concen-trating its own interests."

ST. NICHOLAS FOR YOUNG FOLKS. FOR YOUNG FOLKS.

Are there any boys or girls in your hone? If so, do you want them to grow up familiar with the best literature and art, and with all their best impulses quickened? There is a way to do it, at an expense of less than one cent a day—a way to have in your home the greatest educational influence of our time.

"St. Nicholas for Young, Folks" is the medium—a magazine absolutely unequalled in the literature of the world. It is recommended by educators everywhere—it contains only the very hest and most helpful and entertaining literature, and it is illustrated by the greatest of American illustrators.

IN 1902

IN 1902 some new features are to be introduced into this famous periodical—one is the printing of iong stories complete in a single number— no serials. A splendid group of stories by the best living writers for young folks has been gathered for this purpose.

"NATURE STUDY" is now a great feature of St. Nicholas. The young readers ask questions and they are answered in a department called "Nature and Science." Private schools take the megazine for this alone. The "st. Nicholas League" is an organization of St. Nicholas readers wherein prizes are offered for the best pictures, stories, poems, etc.
